Who's in the room?

Our goals for today:

- Introduce a new resource
- Experience booster shot content
- Brainstorm uses for the content

Observations

Competing Needs:

- Increasingly difficult to encourage teacher to pursue AIG add-on licensure.
- Finding time to provide PD to stakeholders
- Even when we have licensed teachers, we need a “refresher”

“It Takes a Village”

- We need the support of ALL teachers to meet the advanced needs of our learners.

Challenge

How do we provide PD that is adaptable
and *helpful* – easily?

Stakeholders are more over-whelmed than
ever.

One Viable Solution
