GOALS !**

# First, the LEA Response

The LEA Response addresses what you will intentionally **DO** during the 2016-19 plan cycle to respond to the practice.

Reminder of strategies from session #1

# Then, the Ideas for Strengthening the Standard

## GOAL:

- Consider what your district or charter might do to become stronger in this overall area.
- Connect the ideas for strengthening with your vision.

# Structure & Formatting

Ability to be flexible–

- Bullets vs Action Steps
- Big encompassing ideas vs small focused steps

Should respond to the needs of your target audience

- Consider “planting the seed” philosophy

# Who is YOUR target audience?

- Board of Education
- District Administrators
- School Administrators
- TEACHERS
- Others...

# Example from Standard 3

- Draft in the LEA planning document...
- Option A – general statement or use of bulleted list
- Option B – plan of action

# Possible sources of evidence

A quick word:

- Natural outcome of LEA response
- Evidence based review
- Consider – what would you share with a team of program auditors who visit your district?
